DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-11, 18 and 19, drawn to a method for the treatment of infection by a microorganism in a biological environment.

Group II, claim(s) 12-17 and 20, drawn to an agent capable of antagonizing interaction between an HA2-containing molecule and an HA2-binding motif.

The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: An agent that antagonizes the interaction between a molecule derived from a microorganism and having an HA2 domain and an HA2-binding motif on a porphyrin containing molecule is the only factor common to all of the claims. Bramanti et al. (J. Bacteriology, V 175, N 22, Nov. 1993, pp. 7413-7420) teach agents, namely, protoporphyrin IX and zinc protoporphyrin (Table 2), that antagonize the interaction between *P. gingivalis*, an HA2-containing molecule, and hemin. Because such an agent is known and not novel, there is no novel inventive step common to all the claims.

Further, claim 11 contains two different amino acid sequence to two different proteins with different structures and therefore two distinct inventions. However, the international application shall relate to one invention only or to a group of inventions so linked as to form a single general inventive concept. PCT

Rule 13.1. The applicant must elect only one of the sequence for examination.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the

Art Unit: 1653

application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Laurie Mayes whose telephone number is (703) 605-1208. The examiner can normally be reached on Monday through Friday from 7 AM to 3:30 PM.
